**General Surgery and Endoscopy**

---

November 18, 2020

Dear Patient,

I am writing to inform you of *my* upcoming retirement. I will be closing my practice December 20, 2020. It has been my pleasure to be able to provide care in the White Mountains for the past 26 years. Thank you for choosing me as your doctor.

It has been our practice to provide office notes and records to you and your primary care physician at the time of your visit. If you require additional records, we can be reached at 928-532-5463 and records can be mailed upon receipt of a signed authorization release form.

I have had a good relationship with the Summit Healthcare surgery group and know that should you need an endoscopy or General Surgery procedure in the future it will be available locally. I am hopeful that Sunrise Ambulatory may also be able to bring endoscopy and General Surgery services to their facility as well in the near future.

I wish you well in the coming years.

Sincerely,

A. Daniel Greco, M.D.
